

Judging Report GrootGroenPlus 2021

Silver	Applicant		Score
Cercis canadensis 'NC2016 2' (ETERNAL FLAME)	Zundert Plant BV, Zundert	Unique plant of which the young shoots are first black-red and then deep red. The adult leaves are dark yellow. Elegant plant that grows well. Nice contrast between the leaf colours, good presentation of uniform plants.	7,8
Fagus sylvatica 'Verschuurfag1' (MIDNIGHT FEATHER)	A & E Maaijen VOF, Boskoop	Striking because of its good upright growth and beautiful combination of dark leaves that are initially very narrow and later deeply incised.	7,3
Leucothoe axillaris 'Opstal 55' (CURLY GOLD)	Boomkwekerij R. van Opstal, Zundert	Yellow leaved variation of 'Curly Red'. The strongly curled leaves are first deep orange-red and then turn bright yellow. Fresh appearance and versatile as pot or border plant. Good presentation.	7,6
Lonicera nitida 'GRLN02' (GARDEN CLOUDS PURPLE STORM)	Boomkwekerij Ad Vurens, Boskoop	Introduced as a Buxus-replacement and assessed as such. Beautiful purple-coloured young shoots. The adult leaves are also a striking dark green and have a healthy appearance.	7,3
Nandina domestica 'NRL2015' (RED LIGHT)	Boomkwekerij R. van Opstal, Zundert	Combines the variegated leaves of 'Twilight' with the red shoots of 'Seika' (OBSESSED). Fresh plants with a playful look.	7,2
Rhododendron obtusum 'Roblez' (ENCORE AUTUMN FIRE)	Van der Peijl Tuinplanten, Zundert	Flowers sufficiently richly with relatively large, bright red flowers. Healthy dark green leaves form a good background for the blooms. Not unique, but an improvement of the existing range.	7,5

Bronze	Applicant		Score
Lonicera nitida 'GRLN01' (GARDEN CLOUDS GREEN BREEZE)	Boomkwekerij Ad Vurens, Boskoop	Introduced as a Buxus-replacement and assessed as such. Both the young shoots and the adult leaves are dark green and have a healthier appearance. Of the GARDEN CLOUDS series, 'GRLN01' looks the most like Buxus.	6,7
Lonicera nitida 'GRLN03' (GARDEN CLOUDS COPPER GLOW)	Boomkwekerij Ad Vurens, Boskoop	Introduced as a Buxus-replacement and assessed as such. Has a slightly finer structure than the other two cultivars. Striking copper coloured young shoots and mid-green adult leaves. The foliage have a healthy appearance.	7,0
Prunus laurocerasus 'Flippi01' (BONAPARTE)	Plantipp BV, IJsselstein	Looks like 'Anbri' (ETNA) in terms of leaves and young shoots, but has a distinct, rather slender upright habit. The dark green leaves look healthy.	6,9
